About me: I'm a web developer with a demonstrated history of working in the Information Technology & Services industry for more than 6 years. I love working on projects, converting ideas and UI's to functional web applications and enjoy doing the front- end part because of my skills in user interface design. I create websites and web apps using javascript, typescript and their frameworks. I'm a fast learner, I have skills in Software Engineering, Front-end web development, React JS, UI Design, Graphic Design, Photography, Translation, Blogging, Software Reviewing, and Management. I'm fast learner with, strong media and communication professional with an engineering degree focused in mechanical engineering from University of Mosul.

DIGITAL SKILLS

ReactJS │ VScode │ GIT (GitHub) │ Agile Methodology │ Scrum │ State Management │ Git workflow │ Context API │ Sprint Planning │ Social Media │ Microsoft Office │ CI / CD │ AutoCAD │ Redux │ SolidWorks │ Photoshop │ Netlify │ Material Ui │ Adobe Illustratior │ Firebase │ HTML │ CSS │ JavaScript │ JSON │ Bootstrap │ TypeScript │ Translation │ Responsive Web Design │ Search Engine Optimization (SEO) │ SCSS │ Maintaining │ Blogging │ Technical writing │ Next.js

PROJECTS

02/2021 – 04/2021
FindYours

The idea of the project is to help people find their missing stuff, will let people post the things they lost or found, every post will contain the info a user may need to contact the person.
Technologies: React JS, Material UI CSS Framework, Firebase, Redux, Prettier, Eslint.
Repo: https://github.com/murtaja1/find_yours
Live: https://findyours.netlify.app

06/02/2021 – 13/02/2021
Weather web app (React JS)

Provide weather forecasts over a 6 day period updated each day for more than 2000 cities.
Used libraries and dependencies: React JS, Chart.js, Fontawesome, Bootstrap ,Ajax
Live Demo: https://weather-app-othman.netlify.app
Code Repo: https://github.com/Othmanosx/weather_app_js

28/01/2021 – 05/02/2021
Hangman Game (ReactJS)

Hangman is a word guessing game which I developed using ReactJS Javascript framework in which the user guesses the word generated randomly by the game from an API.
Live Demo: https://hangman-sand-team.netlify.app/
Code Repo: https://github.com/Othmanosx/hangman_react_js
