# Othman Shareef

othmanosx@gmail.com | othman.itechnopro.com | linkedin.com/in/othmanosx | github.com/othmanosx

About me: I'm a web developer with a demonstrated history of working in the Information Technology & Services industry for more than 6 years. I love working on projects, converting ideas and UI's to functional web applications and enjoy doing the front- end part because of my skills in user interface design. I create websites and web apps using javascript, typescript and their frameworks. I'm a fast learner, I have skills in Software Engineering, Front-end web development, React JS, UI Design, Graphic Design, Photography, Translation, Blogging, Software Reviewing, and Management. I'm fast learner with, strong media and communication professional with an engineering degree focused in mechanical engineering from University of Mosul.

## WORK EXPERIENCE

04/2021 – CURRENT – Erbil, Iraq
**FRONT END WEB DEVELOPER –** GATEWAY FOR COMMUNICATION www.the-gw.com

- Built MyTVAds (Advertising Platform) from zero to live utilizing best practices and responsive design with mobile-first approach and strategy.
- Built Fastlink eSIM admin dashboard to generate and manage eSIM contracts.
- Launched and maintained MyTV+ streaming service app on Hisense Smart TVs with thousands of movies and TV shows.
- Worked remotely and directly in collaboration with UX/UI designers and backend developers, converting designs into real world projects and implementing RESTful APIs.
- Did code reviews, mentored junior developers and lead the frontend team.
- Released updates for live projects fixing bugs and memory leaks, adding new features and big performance improvements.
- Implemented websites, web applications, and landing pages from concept through deployment using latest technologies like React, ES6 & ES7 JavaScript, Typescript, CSS & HTML and Material UI.
- Collaborated with product team members to implement new feature developments.

12/2014 – CURRENT – Remote
**WEB DEVELOPER –** ITECH www.itechnopro.com

- Website owner, manager and organizer.
- Professional Blogger, Front-end web developer, Copywriter, Software reviewer, articles and report writer with 6+ years of experience.

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## DIGITAL SKILLS

ReactJS│ VScode │ GIT (GitHub) │ Agile Methodology │ Scrum │ State Management │ Git workflow │ Context API │ Sprint Planning │ Social Media │ Microsoft Office │ CI / CD │ AutoCAD │ Redux │ SolidWorks │ Photoshop │ Netlify │ Material Ui │ Adobe Illustrator │ Firebase │ HTML │ CSS│ JavaScript │ JSON│ Bootstrap │ TypeScript │ Translation │ Responsive Web Design │ Search Engine Optimization (SEO) │ SCSS│ Maintaining │ Blogging │ Technical writing │ Next.js

## PROJECTS

### MyTV+ Advertising Platform

An enterprise grade advertisement platform for businesses to create and manage their
own advertisement campaigns.
Technologies: React JS, JavaScript, Material UI, Redux.
Live Link: https://mytvadz.com/

### Appollow

A PWA website and mobile app to help people create accounts to share and find great,
special and discounted apps and games.
Technologies: Next JS, TypeScript, Nodejs, MongoDB, PWA, Bootstrap, Firebase, Redux.
Live Link: www.appollow.net

### FindYours

The idea of the project is to help people find their missing stuff, will let people post the things they lost or
found, every post will contain the info a user may need to contact the person.
Technologies: React JS, Material UI CSS Framework, Firebase, Redux, Prettier, ESlint.
Live Demo: https://findyours.netlify.app
Code Repo: https://github.com/murtaja1/find_yours

### Weather web app (React JS)

Provide weather forecasts over a 6-day period updated each day for more than 2000 cities.
Technologies: React JS, HTML, CSS
Live Demo: https://weather-app-othman.netlify.app
Code Repo: https://github.com/Othmanosx/weather_app_js

### Hangman Game (ReactJS)

Hangman is a word guessing game which I developed using ReactJS JavaScript framework in which the
user guesses the word generated randomly by the game from an API.
Live Demo: https://hangman-sand-team.netlify.app/
Code Repo: https://github.com/Othmanosx/hangman_react_js
